Notice of Price Adjustment and Implementation of Minimum Order Quantities
We appreciate your continued partnership and the trust you place in us.

August 2025

We are writing to inform you of two important updates to our pricing and ordering policy, both of which will take effect on 1st October 2025:

Price Adjustment

Over the past two years, we have made every effort to maintain our pricing, despite ongoing increases in material, labour, and operational costs. During this time, there have been no price increases. However, in order to continue providing you with the quality products and reliable service you expect, a price adjustment is now necessary.

Minimum Order Quantities (MOQs)

To improve operational efficiency and ensure better lead time management, we will also be implementing Minimum Order Quantities across selected product lines. Details regarding specific MOQs will be communicated to you directly by your account representative, or you may contact us for a full list.

An updated price list will be issued and shared with you prior to the effective date.

These changes will allow us to continue supporting your needs while maintaining the high standards you've come to rely on.

We thank you for your understanding and ongoing support. If you have any questions or require clarification on these updates, please do not hesitate to reach out.

Kind regards,

A handwritten signature in black ink, appearing to read 'H. de Lucchi'.
